## SUFFRAGETTES TAKE A HAND IN GATHERING

Two Register as Constitutional Convention Lobbyists.

BOTH HAIL FROM CLEVELAND

Judge Lindsey of Denver Arouses Enthusiasm Among Delegates by Declaration That Power of Courts Should Be Restricted in Matter of Declaring Laws Unconstitutional. Temperance Planks Continue to Be Popular.

Columbus, O., Jan. 19.—Miss Elizabeth J. Hauser and Mrs. Myron B. Force, both of Cleveland, were the first persons to register as lobbyists with Secretary Galbreath of the constitutional convention. They represent the Woman Suffrage party of Ohio and will appear before committees of the convention urging the submission of a woman suffrage proposition which is to be introduced next week by Delegate W. B. Kilpatrick, chairman of the woman suffrage committee.

Three unofficial suffrage proposals have already been introduced. Suggestion by Judge Ben B. Lindsey of Denver that the right of the courts to declare laws unconstitutional be restricted to a unanimous decision if not taken away altogether, was greeted with a round of applause by the members of the constitutional convention. In the course of a brief address to the delegates, in which he was presented by President Ranslow as "having fought with the beasts at Denver," Judge Lindsey said:

"You needn't fear trusting the people. Put a curb on the courts, as is done in England. In no other country than this may the courts declare a law unconstitutional. They shouldn't be permitted to do so unless the unconstitutionality is beyond a reasonable doubt. Chief Justice Marshall said that. And there is a doubt if one judge says there is. So a law should not be declared to be unconstitutional unless the court is unanimous."

Delegates Are Industrious. That the constitution makers are going to have plenty of material with which to work out the various problems before them was made evident when 41 proposals were sent in by delegates. The good roads, public debt and liquor questions were the leading subjects attacked by the delegates.

Four delegates sent in proposals relating to the liquor question. Walter of Guernsey county sent in a proposition that no license should be granted for the sale of intoxicating liquors. Tallman of Belmont sent in one similar to the license proposition introduced by Judge Kins for the liquor organization. Marriot of Delaware sent one giving the legislature the right to license, but does not make it compulsory. Miller of Fairfield sent one relating to the alternative proposition of license or statewide prohibition.

On the taxation question Riley of Washington county, adding burying grounds, churches and other institutions used only for public purposes to the list of property exempt from taxation. Brown of Pike county wants to make the maximum tax rate for the state 1 1/2 per cent. Dunn of Clermont wants the taxation to be levied only on the difference between a man's assets and liabilities, while Eber of Preble county sent one in prohibiting a direct taxation upon property by the state for any purpose other than in war times. This would do away with the present school tax.

For Better Roads. On the good roads proposition Stewart of Meigs county and Smith of Geauga county want to give the legislature the right to increase the public debt to \$50,000,000. Watson of Guernsey wants to strike out that section in the present constitution which prohibits the creation of a public debt for internal improvement.

## FEVERISH RUSTLE FOR COIN

Columbus Tries to Raise \$100,000 For Centennial.

Columbus, O., Jan. 19.—Columbus business men have started an active campaign to raise \$100,000 as this city's appropriation for the Ohio-Columbus centennial. The centennial commission has raised \$19,000 in outside counties, and is hopeful of securing an appropriation of \$100,000 from congress. The centennial will be held in connection with the state fair in August and September of this year.

Russians Occupy Persian City. Teheran, Jan. 19.—Two thousand Russian troops have occupied Meshed, a walled holy city of Persia.

## MRS. LUELLA ROEBUCK

"Peached" on Father After Hearing Eloquent Sermon.

## REPUDIATES DAUGHTER MOVED BY SERMON

McKinley Refuses to Recognize Mrs. Roebuck in Jail.

Circleville, O., Jan. 19.—Mrs. Edna Luella Roebuck, whose revelation to Chief Carter of Columbus concerning the murder of Fanny Hagelanz, and which resulted in the arrest of her father, Edward McKinley, and his brother, David McKinley, and Henry Hagelanz, brother of the murdered woman, on a charge of murder, appeared before the grand jury and repeated her story of how she had overheard the accused talking about the crime.

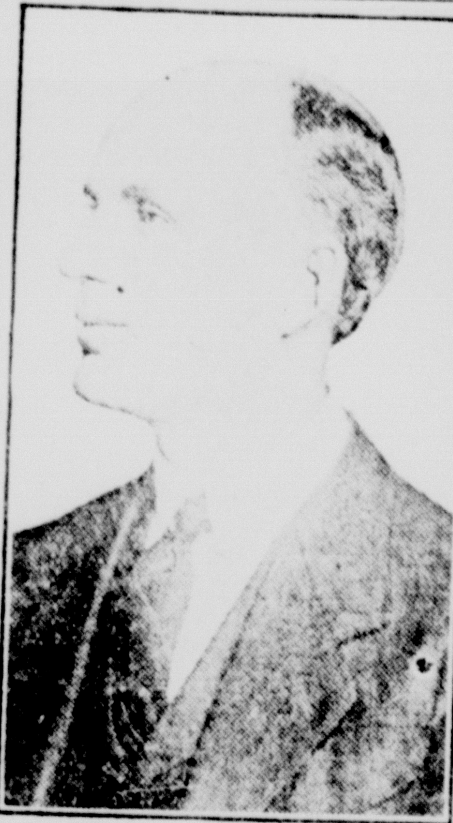

Both Mrs. Roebuck and her mother are kept under guard at the sheriff's residence. Edward McKinley refuses to receive his daughter in his cell or to talk to her.

Confession Follows Sermon.

Columbus, O., Jan. 19.—A sermon preached by the Rev. W. H. Harbise, pastor of the First M. E. church at Harrisburg, from the text, "Son, Remember," in which he referred to the recent confessions of H. C. Beattie, the McNamaras and Rev. C. V. T. Richeson, is now said to be responsible for the confession to the local police of Edna Luella Roebuck, in which she accuses her father, Edward McKinley, her uncle, David McKinley, and Henry Hagelanz of the murder of Fanny Hagelanz.

## S. D. FESS

Vice President of Ohio Constitutional Convention

## Day's News in Brief

Two Cleveland representatives of the Woman's Suffrage party of Ohio, register as lobbyists in the Constitutional convention and will urge right of females to vote.

Edward McKinley, charged with murder of Fannie Hagelanz, refuses to see or talk with his daughter, Mrs. Luella Roebuck, who "peached" after listening to powerful sermon.

Fierce gales in European waters causes shipwrecks and heavy loss of lives.

Banker Morse in favor of noted surgeon, who advises his pardon by the President. Fear he will not live a month.

Drys retain Gallia county by reduced majority, but lose Washington county in official canvass.

## CHINESE REPUBLIC IS NOW ASSURED

Manchu Rulers Agree to Abdicate for Princely Pension.

London, Jan. 19.—Wiring from Peking, the correspondent of the Times says that an understanding has been reached between the republican leaders and the imperial clan and that two edicts will be issued at once to carry this out. The first edict will empower Premier Yuan Shih Kai to establish a republican form of government. Yuan will accept, whereupon the delegates at the Nanking conference will elect him president of the republic. Sun Yat Sen retiring in his favor. Yuan will accept the presidency.

Then a second edict will be issued announcing the abdication of the throne. After the abdication Sun Yat Sen will come to Peking to confer with Yuan in regard to the formation of the new government.

The republican leaders will allow Emperor Pu Yi to retain the title of "Manchu emperor" but not "emperor of China." Yuan proposes to grant the court pensions amounting to 5,000,000 taels (about \$3,000,000) per annum.

The three would-be assassins of the premier were strangled to death.

## STILL RAP WILSON

St. Louis, Jan. 19.—St. Louis Democrats, who looked with favor upon the candidacy of Governor Woodrow Wilson for presidential nomination were stunned by the publication of the Watterson statement. On top of the Watterson letter, it was brought to light here that Governor Wilson wrote a letter on July 6 last strongly endorsing statewide prohibition in Texas. Copies of the letter were exhibited by prominent Democrats as proof of the statement.

## SHIP SUNKEN 53 LIVES LOST

Wistow Hall Goes Ashore on Coast of Scotland.

FIERCE GALE SWEEPS ATLANTIC

Vessel Driven Out of Course and Goes to Pieces Fifteen Minutes After Striking on Rocks—Captain and Three Members of Crew Swim Ashore, but Are Terribly Beaten by Waves—Feared Storm's Toll Will Reach 100 Mark.

Glasgow, Jan. 19.—The Hall line steamship Wistow Hall was wrecked on a group of dangerous rocks off Northaven, Aberdeenshire, 53 members of the crew being drowned.

Captain Stoddart and three members of the crew were rescued. Most of those drowned were lascars.

There was a terrific gale at the time and the Wistow Hall was driven off her course. The seas were so high when she struck that it was impossible to launch a lifeboat. The coast guard men from the village of Bulters attempted to reach the ship, but were hurled back each time they got their boat in the water.

The lifesaving crews of the Peterhead and Peterroll stations also did their utmost to save some of the crew of the doomed vessel, which was being driven rapidly on the rocks. The vessel remained on the rocks only a short time, when she was lifted up and driven towards the shore. Then she was dashed broadside on against Temple rock, where she found lodgment for 15 minutes. At the end of that time she began to break up, and in a few minutes was a mass of fragments.

Bodies Washed Ashore.

Numerous bodies were washed ashore in a terribly battered condition. The mission house on shore was improvised as a mortuary chapel and is full of ghastly corpses.

Captain Stoddart and the three lascars who were saved owe their lives to luck and the fact that they were strong swimmers. Captain Stoddart was unconscious when he was picked up on the beach, but was soon resuscitated. One of his arms was broken and the other badly bruised, while he also suffered internal injuries. Two of the three lascars were badly battered up.

It is said now that the vessel which foundered off Peterhead is not an American ship, but the steamship Frederick Snowden, owned by the Aberdeen Coal company. The vessel was loaded with coal and was a small one of 431 tons net. Her owners have not heard of her loss as yet.

Hundred Lives Lost.

London, Jan. 19.—The gale which continues in some parts of the United Kingdom has been the most severe in a long period. About 100 lives have been sacrificed by shipwrecks and accidents, and it is feared the tale is incomplete.

The Octopus, Soon to Be Known as C 1, In Drydock

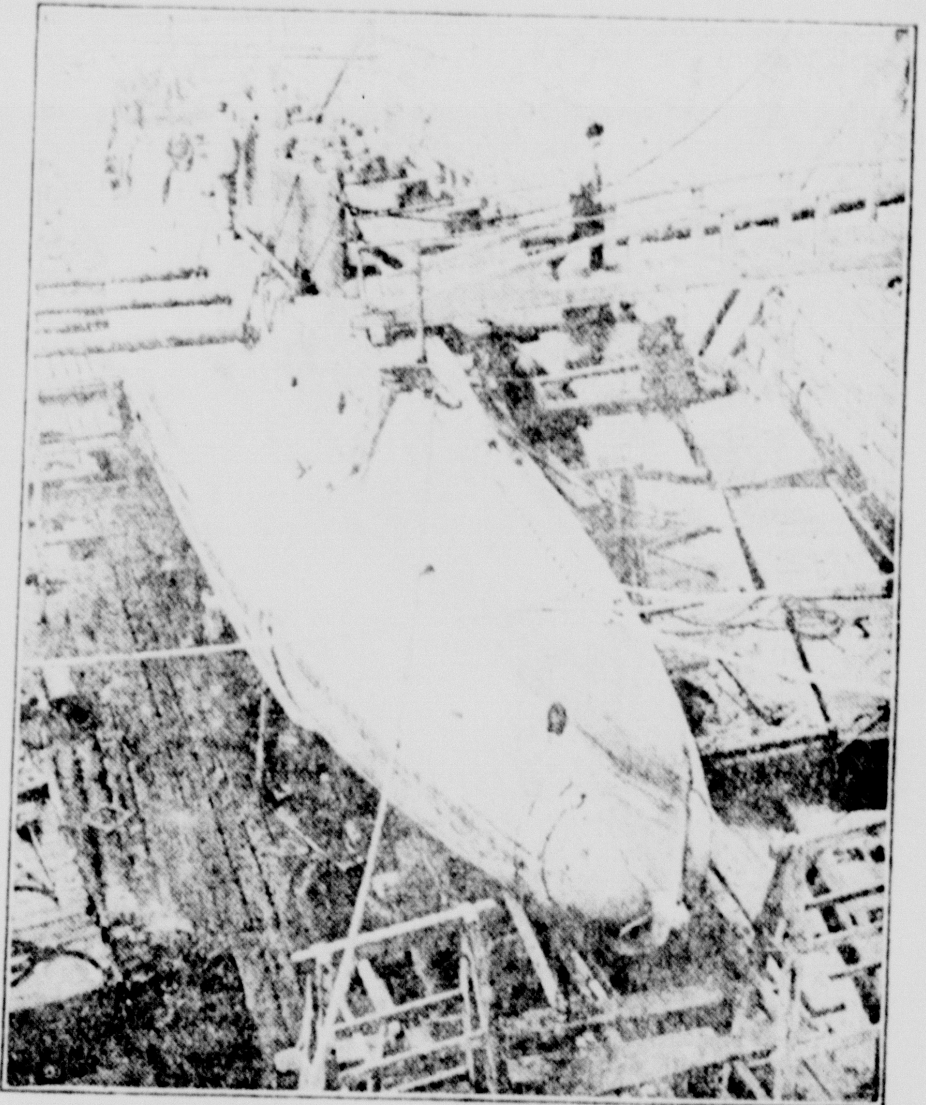

Photo by American Press Association.

WHEN she emerges from her berth in drydock at the New York navy yard the submarine Octopus will be the C 1. This is in pursuance of the new policy of designating the vessels of this class by letter and number instead of by names of fishes as has generally been done in the navy. In making the change the navy department is following the practice of the British and French, and perhaps anticipating the time when the United States shall have built so many submarines that all the commonly known denizens of the deep would not suffice for the naming of them.

## MITCHELL IS YET POPULAR LEADER

Miners Agree to Hear Former Leader's Accusations.

SOCIALISTS GIVEN SETBACK

Proposition For Indorsement Turned Down at Indianapolis Convention by Vote of 515 to 155—White Officially Declared Elected President Over Tom Lewis—Organization Will Not Withdraw From American Federation of Labor.

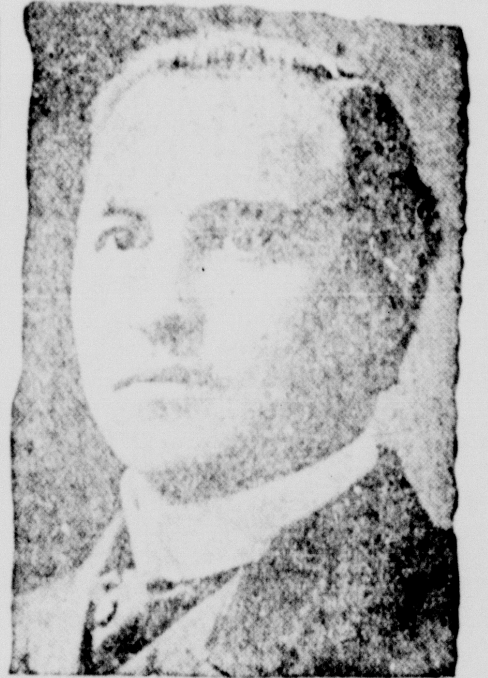

Indianapolis, Ind., Jan. 19.—Although attacked in a resolution before the convention of the United Mine Workers of America as a "labor leader in the grasp of the capitalists," John Mitchell, former president of the organization received more votes than any other candidate for delegate to the American Federation of Labor.

Mr. Mitchell will appear to defend his advocacy of the National Civic Federation, from which he resigned last year in compliance with a resolution adopted by the miners' convention at Columbus, and the assembly voted to pay the expenses of his trip. He has declared that the Columbus convention was packed against him.

Socialists Turned Down.

The attempt of Socialists to capture the convention was frustrated when a resolution to indorse the Socialist party as the party of the miners' organization was voted down. The movement for the secession of the organization from the American Federation of Labor was also voted down, but the convention adopted a resolution declaring in favor of the industrial form of organization to take the place of organization by crafts.

The vote on the question of indorsing the Socialist party was a defeat for the Socialist movement in the

JOHN MITCHELL.

convention. It stood 515 to 155 in favor of adopting the resolutions committee's substitute for the resolution of indorsement.

The report of the tellers was submitted and John P. White was shown to have been elected president over Tom Lewis by a majority of 45,424. Lewis received 38,591 and White 104,015 votes. Frank J. Hayes was elected vice president and Edwin Perry secretary-treasurer.

Operators Willing to Confer.

Pittsburg, Jan. 19.—Coal operators of Ohio, Indiana and Pennsylvania in session here accepted the invitation of President John P. White of the United Mine Workers of America for a joint wage conference on Jan. 25 at Indianapolis, provided the conference is restricted to eight operators and eight miners from each of the states represented.

## Blocked By Pomerene

Ohio Senator Objected to Making Saint of Stephenson.

Washington, Jan. 19.—No evidence of corruption" was the unanimous verdict of the senatorial subcommittee which has been investigating the election of Senator Stephenson (Rep., Wis.) agreed to report to the senate committee on privileges and elections. The subcommittee's report will be made informally to the senate committee on privileges and elections tomorrow.

Delays in the subcommittee's report was due to objections by Senator Pomerene (Dem., Ohio), who would not permit an eulogy of Senator Stephenson in the report, as originally drawn. Pomerene said he was willing to sign a simple statement that the charges had not been proved, but he objected to "giving a halo to Stephenson."

## Many Changes Announced In Postage Stamp Designs

Franklin Heads on One-cent Stamps Will Be Supplanted By  
Washington Heads—Others Undergo Radical Changes.

During the early part of this year the postoffice department will issue some new stamps and make changes in many others which will be of deep interest to citizens throughout the United States.

Among the changes announced is that the head of Benjamin Franklin will be removed from the one-cent stamp to be replaced with likeness of George Washington. The portrait of President Washington will appear on the one-cent, two-cent, three-cent, four-cent, five-cent and six-cent stamps. Hereafter the eight-cent, ten-cent, 15-cent, 50-cent and \$1 stamps, which now bear the portrait of Washington, will display that of Franklin.

The government issues a \$2 stamp dark blue in color, with the portrait of James Madison, and a \$5 stamp dark green, with portrait of John Marshall. These two stamps are to be discontinued and the new issue will contain no denomination higher than a dollar.

A few changes in stamp colors will be made although not in the issues which are widely used. The two-cent will remain crimson. The one-cent will remain green, but there will be a change in design, because of the removal of the Franklin head. The Washington portrait will be displayed in the same manner on the one-cent as it is on the two-cent stamps. On both the one and two-cent issues, however, there will be this important change. The denomination of the present stamps is expressed in words. On the new ones numerals will be used in each of the lower corners, except in the highest issues.

The three-cent stamp will remain light purple, the four-cent, brown; the five-cent, dark blue; the six-cent, orange, and the eight-cent, light green. In the ten-cent, however, which is now a bright yellow, a dark shade of the same color will be employed. The 15-cent stamp which is now a light blue will be changed to a soft gray. At present there are three blue stamps, the five-cent, the 15-cent stamp and the \$2. Two of them will thus be eliminated. The 50-cent stamp will remain a dark purple, and the \$1 stamp a dark brown. The four-cent is also a brown stamp, the difference in shade makes them distinctive.

In the new Franklin stamps the words "U. S. Postage" will be placed in a curved line above the portrait. In the Washington stamps these words will remain a straight line. The new issues are now on the presses at the bureau of engraving and printing.

### Order Taken In Fulton Case

In the case of Fulton vs. Fulton, involving the partition of some 1000 acres of land in Marion and Madison townships, an order has been taken finding interests of all parties thereto and ordering the same to be apportioned.

The commissioners appointed to apportion the estate are R. H. Fiechthorn, Jasper township; Logan A. Dingus, Wayne township; and Edmund Klevner, Paint township. Frank M. Kennedy is now surveying the tract.

**THE DANGER OF LA GRIPPE**  
Is its fatal tendency to pneumonia. To cure your la grippe coughs take Foley's Honey and Tar Compound. R. E. Fisher, Washington, Kas., says: "I was troubled with a severe attack of la grippe and nothing I used did me any good and I was threatened with pneumonia. A friend advised me to use Foley's Honey and Tar Compound and I got some at once. I was relieved from the very first. By the time I had taken three bottles my la grippe was gone. I believe Foley's Honey and Tar Compound to be the best medicine I ever used and always keep a bottle with me." Blackmer & Tanquary.

### Xenia Runs Short No Library Fund

The appropriation for the maintenance of the Xenia library was entirely cut off by the school board at their last meeting. Since the construction of the present Carnegie library building, a levy of one-half of one mill had been drawn from the school fund for the support of the library, making a yearly allowance of \$2200. Under the new Smith one per cent law, the revenue is cut to such an extent that the board felt that it could not continue the levy for the library, and withdrew its support entirely. The finance committee reports that they have sufficient funds to conduct the schools for the first six months of 1912 with a possible deficiency of \$500 in the tuition fund, which may necessitate cutting the school term one or two weeks. The greatest trouble is anticipated by the board during the last six months of 1912, when the funds will probably be several thousand dollars short.

### Bob White Safe After Cold Snap

Fish and Game Commissioner Speaks reports that quail passed through the recent severe weather in comparative safety, and suffered no unusual serious consequence.

In Fayette county Mr. and Mrs. Bob White withstood the weather remarkably well, according to reports of many farmers, and some of the farmers who are interested in protecting their valuable little feathered friends placed food where they could reach it and assisted the birds to tide over the worst weather in recent years.

### Alleged Murderer Has a Bad Record

Edward McKinley, charged by his own daughter, Mrs. Roebuck, with being implicated in the murder of Fannie Hagelgans, has a criminal record in this county. April 15, 1888, he was convicted of assault and battery; April 13th, 1896, he was indicted for shooting with intent to wound, during the term of office of the late prosecutor John Schleyer, the case was called for hearing in court and on the testimony of Dr. Thompson B. Wright, now located in California, and the late Dr. J. C. Russ, the jury found him insane and he was sent to the State Hospital at Columbus. Circleville Herald.

## Many Changes Announced In Postage Stamp Designs

Franklin Heads on One-cent Stamps Will Be Supplanted By  
Washington Heads—Others Undergo Radical Changes.

During the early part of this year the postoffice department will issue some new stamps and make changes in many others which will be of deep interest to citizens throughout the United States.

Among the changes announced is that the head of Benjamin Franklin will be removed from the one-cent stamp to be replaced with likeness of George Washington. The portrait of President Washington will appear on the one-cent, two-cent, three-cent, four-cent, five-cent and six-cent stamps. Hereafter the eight-cent, ten-cent, fifteen-cent, fifty-cent and \$1 stamps, which now bear the portrait of Washington, will display that of Franklin.

The government issues a \$2 stamp dark blue in color, with the portrait of James Madison, and a \$5 stamp, dark green, with portrait of John Marshall. These two stamps are to be discontinued and the new issue will contain no denomination higher than a dollar.

A few changes in stamp colors will be made although not in the issues which are widely used. The two-cent will remain crimson. The one-cent will remain green, but there will be a change in design, because of the removal of the Franklin head. The Washington portrait will be displayed in the same manner on the one-cent as it is on the two-cent stamps. On both the one and two-cent issues, however, there will be this important change. The denomination of the present stamps is expressed in words. On the new ones numerals will be used in each of the lower corners, except in the highest issues.

The three-cent stamp will remain light purple, the four-cent, brown; the five-cent, dark blue; the six-cent, orange, and the eight-cent, light green. In the ten-cent, however, which is now a bright yellow, a dark shade of the same color will be employed. The 15-cent stamp which is now a light blue will be changed to a soft gray. At present there are three blue stamps, the five-cent, the 15-cent stamp and the \$2. Two of them will thus be eliminated. The 50-cent stamp will remain a dark purple, and the \$1 stamp a dark brown. The four-cent is also a brown stamp, the difference in shade makes them distinctive.

In the new Franklin stamps the words "U. S. Postage" will be placed in a curved line above the portrait. In the Washington stamps these words will remain a straight line. The new issues are now on the presses at the bureau of engraving and printing.

### Order Taken In Fulton Case

In the case of Fulton vs. Fulton, involving the partition of some 1000 acres of land in Marion and Madison townships, an order has been taken binding interests of all parties thereto and ordering the same to be apportioned.

The commissioners appointed to apportion the estate are R. H. Eichthorn, Jasper township; Logan A. Dingus, Wayne township; and Edmund Kleyer, Paint township. Frank M. Kennedy is now surveying the tract.

**THE DANGER OF LA GRIPPE** is its fatal tendency to pneumonia. To cure your la grippe coughs take Foley's Honey and Tar Compound. R. E. Fisher, Washington, Kas., says: "I was troubled with a severe attack of la grippe and nothing I used did me any good and I was threatened with pneumonia. A friend advised me to use Foley's Honey and Tar Compound and I got some at once. I was relieved from the very first. By the time I had taken three bottles my la grippe was gone. I believe Foley's Honey and Tar Compound to be the best medicine I ever used and always keep a bottle with me." Blackmer & Tanquary.

### Xenia Runs Short No Library Fund

The appropriation for the maintenance of the Xenia library was entirely cut off by the school board at their last meeting. Since the construction of the present Carnegie library building a levy of one-half of one mill had been drawn from the school fund for the support of the library, making a yearly allowance of \$2200. Under the new Smith one per cent law, the revenue is cut to such an extent that the board felt that it could not continue the levy for the library, and withdrew its support entirely. The finance committee reports that they have sufficient funds to conduct the schools for the first six months of 1912 with a possible deficiency of \$500 in the tuition fund, which may necessitate cutting the school term one or two weeks. The greatest trouble is anticipated by the board during the last six months of 1912, when the funds will probably be several thousand dollars short.

### Bob White Safe After Cold Snap

Fish and Game Commissioner Speaks reports that quail passed through the recent severe weather in comparative safety, and suffered no unusual serious consequence.

In Fayette county Mr. and Mrs. Bob White withstood the weather remarkably well, according to reports of many farmers, and some of the farmers who are interested in protecting their valuable little feathered friends placed food where they could reach it and assisted the birds to tide over the worst weather in recent years.

### Alleged Murderer Has a Bad Record

Edward McKinley, charged by his own daughter, Mrs. Roebuck, with being implicated in the murder of Fannie Hagelgans, has a criminal record in this county. April 15, 1888 he was convicted of assault and battery; April 13th, 1896, he was indicted for shooting with intent to wound, during the term of office of the late prosecutor John Schleyer, the case was called for hearing in court and on the testimony of Dr. Thompson B. Wright, now located in California, and the late Dr. J. C. Russ, the jury found him insane and he was sent to the State Hospital at Columbus. Circleville Herald.

#### EXAMINATIONS CLOSE FIRST SEMESTER.

### DIDN'T WANT TO EAT

**Had Severe Stomach Trouble—Is All Right Now.**

Experts declare that much of the dyspepsia and loss of appetite so common in this country is due to the use of preservatives in foods. But much more likely it is on account of hasty and careless habits of eating.

Our delicious cod liver and iron preparation without oil, Vinol, has restored appetite and digestion to thousands of people who had despaired of ever being able to enjoy a meal again.

Fred Oberlander, of Schenectady, N. Y., says "I had stomach trouble for two years and they were years of terrible suffering. I did not want to eat, and what I did eat gave me pain. My health ran down too. Since I have used Vinol my stomach trouble has vanished, I eat heartily, and never felt better in my life."

If you are run down and weak, cannot eat or digest your food, you need Vinol. It will do you great good. You can have your money back if Vinol does not do all we claim. Blackmer & Tanquary, druggists, Washington C. H., Ohio.

## Cold Snaps Wires Employees Busy

Telephone and telegraph employees have been unusually busy making repairs on their lines during the past ten days or two weeks, and have experienced difficulty in a great many ways.

Immediately after the snows when the roads were so blocked with snow drifts, the employees could not reach the breaks without considerable effort. After unceasing efforts most of the innumerable breaks have been repaired.

To the man up a telephone pole when the thermometer hovered around zero and below, the experience is one not soon forgotten.

## Giant Grasshopper Is a Panamanian

A Panamanian grasshopper, measuring five and one quarter inches from its head to the tip of its folded wings, and the largest insect of the grasshopper species that ever appeared in Washington, is now on exhibition at The M. Hamm Fertilizer office, having just arrived from Panama.

Mr. Ernest Bradford, chief chemist in the government employ at Cristobal, Canal Zone, sent the big grasshopper to The M. Hamm company, with whom he was formerly associated as chemist.

The insect is preserved in alcohol, and would shame the largest Kansas grasshopper in existence. The big fellow is attracting a great deal of attention. One farmer expressed himself as being "most confounded thankful that such pesky critters did not thrive hereabouts."

## New Holland Character Carries Gun---Gets \$200

Imitator of Wild and Wooly West Comes to Grief Before  
Mayor Goeller, of Circleville---Mother Will Pay Fine.

Albert Douglas, son of John Douglas of New Holland, has just come to grief in Circleville where he was apprehended for carrying concealed weapons, and as a result was given \$200 and the costs and stands committed to the Zanesville workhouse until paid.

Douglas received the liberal fine before Mayor Goeller, of Circleville, who has announced his intention of breaking up the gun carrying habit.

According to information regarding the trouble, young Douglas shot up New Holland in true western style and then went to Circleville where he threatened to shoot the first colored man he met.

On Tuesday he had had trouble in Chillicothe, and when the police appeared upon the scene he boarded a traction car and landed in Circleville eventually reaching his home in New Holland.

The boy's mother telephoned not to send her boy away to the workhouse, and she would be over and arrange the payment of the fine and costs. Meanwhile Douglas is held in the city lock-up at Circleville.

## IN SOCIAL CIRCLES

## CLEAN OFF THE SNOW.

When these heavy snows and rapid thaws appear as they have a habit of doing this time of the year, it is a comparatively easy matter to pick out the residence of the man who loves his neighbor as himself.

People can always tell just where that kind of a man lives by the condition of the sidewalks in front of his home.

The man who doesn't care for his neighbor's comfort allows the snow to remain piled up in drifts all over his sidewalk and then consoles himself with the thought that he is doing everything required of him when the public snow plow cuts a wide path through the thick drift.

The best that can be done with the big snow plow is to scoop a way through the heavy drift leaving the solidly packed snow from two to six inches deep at the bottom of the path.

This method breaks the way open in a hurry-up order for the early workers to get through to their daily tasks and is the best, short order method the public servants can adopt.

But on the sidewalk of the man who is content with what the public does for him when the thaw comes the slush is a fright. The hard packed snow softens up to about the consistency of thick molasses with water standing all over it, through it and underneath it.

It is at this time that the man who loves his neighbor as himself will dig down into his jeans, fish up a thin dime or a two bit piece, whistle to some passerby who needs work and have him remove the wet mush from the sidewalk.

In so doing he does good turns on the bargain day schedule—gives employment to the idle and permits his neighbor to pass over dry shod.

It's a pretty mean man who, for the sake of the paltry bit of money would allow children and ladies to wade through the slush which no overshoes can keep out, but from the look of the sidewalks in Washington we have several mean citizens.

No, it is probably more thoughtlessness than meanness, but the result in colds, coughs and pneumonia to the pedestrians is the same.

If Washington is clothed with another blanket of "the beautiful" this winter it is to be hoped that more of her citizens will think of and more will act on the love thy neighbor commandment.

## MAKE IT PLAIN.

If the men now gathered together at Columbus and known collectively as the Constitutional convention of 1912, should, in their wisdom, conclude to make any changes in the present fundamental law of the state, it should be done in language which admits of but one meaning.

The provisions of the present constitution are worded with the simplest style of diction of the time in which they were drawn, yet thousands of dollars have been spent directly and more indirectly, in settling technical questions raised by astute lawyers on the meaning of certain provisions.

How much of that expensive quibbling the people will have inflicted upon them at their cost within the next two years, depends entirely upon what the delegates of the present constitutional convention conclude to do and in what language they embody that conclusion into the constitution.

If they but follow the rules that good lawyers frequently give to their too willing witness, "Stop when you have answered the question," much of annoyance and expense will be saved.

There is no reason why these men should not be able to express their ideas clearly and concisely and avoid a multiplicity of law suits and a monument of expenses for coming generations to face.

Make it plain.

### THE REAL HERO

Napoleon was a wonder and Duke Wellington a star. And Grant and Stonewall Jackson, they could go some in a jar. But none of them are in it, not a tiny little bit— To the little tad at home who thinks his pop is IT.

Now Sandow was a strong man and this Hercules a bear. And Sampson and old Atlas, why for weight they didn't care.

But the whole four put together, they couldn't make YOU quit. With the little tad at home who thinks his pop is IT.

Jack Johnson could not touch YOU. Buffalo Bill would run away. YOU could sink more ships than Dewey, an army YOU could slay.

YOU could lick the whole police force and Sherlock Holmes outwit— thinks his pop is IT.

With the little tad at home who let others don their medals while the chartered music plays.

Let other heroes prance before the public's fickle gaze;

But I wouldn't swap my homage, for I have made a hit

With the little tad at home who thinks his pop is IT.

### "THE CHORUS LADY."

The coming of that great comedy success, "The Chorus Lady" will be heralded with delight by the patrons of the Empire theatre, where she will appear Tuesday evening, January 23. What is more wholesome than good humor? There is lots of that in "The Chorus Lady" and Patricia O'Brien, with her stage slang is a delight to the ear. The famous dressing room act is one of the cleverest scenes ever attempted on the stage, and shows the chorus room of the Broadway theatre, New York, with the girls getting into their costumes for the night's performance.

## Ulric Sloane Seriously Ill At Cincinnati

Ulric Sloane, one of the most famous criminal lawyers of Ohio, and well known here especially, as being of counsel for the state in the prosecution of Col. A. B. Coit and later as of counsel for the defense in the Kirby murder case, is lying very ill at the Jewish hospital in Cincinnati. Mr. Sloan, whose home is in Columbus, came to Cincinnati as counsel for Dr. Frank Caldwell, former president of the Western and Southern Life Insurance company, in his suit against that concern for \$1,500,000. Soon after the suit was settled Mr. Sloan was seized with pneumonia and was removed to the Jewish hospital for treatment. His wife was sent for and is at his bedside. Mr. Sloan's activity as a lawyer extended throughout the state. In the past few years he has been identified with several important criminal and civil cases in Hamilton county. Mr. Sloan was also retained by the people of Adams county to test the constitutionality of the rulings of Judge A. Z. Blair in the vote-selling cases, but they failed to raise sufficient money as a retainer, and he retired as counsel.

Charles Durham, Lexington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear through on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two-thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." Blackmer & Tanquary.

## Classic Report By Conductor

The Chillicothe Advertiser tells the following story of an incident which happened in this city a few days ago:

"The other day Trainmaster Plumley asked one of his conductors to throw out a switch point at Washington C. H., over which the water from passing engines had trickled and frozen up.

"He received the following scholarly reply from the conductor:

"On account of the water while in a fluid state getting between and under the switch point and then congealing on account of the frigid ozone, this switch cannot be used until thawed out." And this man was not even born in Boston."

## SURGEON ADVISES MORSE'S PARDON

President's Clemency Will Not  
Save Banker's Life.

Washington, Jan. 19 — President Taft commuted the sentence of Charles W. Morse to expire at once. This action was decided upon following the receipt of a report from Surgeon General Terney of the army, who told Attorney General Wickersham that Morse could not live more than one month longer if kept in confinement nor more than six months if released.

Charles W. Morse was convicted in the federal court in New York on Nov. 3, 1908, of having misapplied the funds and made false entries in the books of the National Bank of North America, of which he was vice president. He was sentenced the next day to 15 years in the federal prison at Atlanta.

Before the panic of 1907 Morse's operations were subject of comment in the financial district. The conservatives feared he was overextending himself. When the panic came he had a string of four important New York banks, the American Ice company and the Consolidated Steamship company, which was a merger of the coastwise companies. In the panic he was eliminated from everything, and then came the criminal prosecution.

Thanks God For Pardon.

Atlanta, Jan. 19—"Thank God" said Charles W. Morse, when told that he had been pardoned by President Taft. Morse is very weak and the exhilaration with which he received the news was hardly more than a whisper. While Morse's pardon removes from him the watchful eye of the government, it is hardly probable that he will leave the fort soon. The present indications are that it will be some time before he is able to stand even the short trip to the city.

She is released by her manager for a few concerts, and will receive a royal welcome from old Ohio friends.

### FOLEY'S HONEY AND TAR COM- POUND "CURES IN EVERY CASE."

Mr. Jas. McCaffery, Mgr. of the Schlitz Hotel, Omaha, Neb., recommends Foley's Honey and Tar Compound, because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in diseases of the throat and lungs." Foley's Honey and Tar Compound is a reliable family medicine. Give it to your children, and take it yourself when you feel a cold coming on. It checks and cures coughs, colds and croup and prevents bronchitis and pneumonia. Refuse substitutes. Blackmer & Tanquary.

Thomas of Cuyahoga wants in the constitution a code of industrial regulation prohibiting child labor, providing for the short workday for women and compulsory workmen's compensation.

Bowditch Hamilton sent in his proposal to abolish divorce in Ohio. He would have the courts grant separation and alimony, but not divorce. Delegate Hahn of Cuyahoga county introduced many proposals in the constitutional convention, ranging from the correction of the present jury system to the regulation of religion in the public schools.

Delegate Bowditch of Hamilton county presented an invitation to the convention to hold at least a part of its sessions in Cincinnati.

## SURGEON ADVISES MORSE'S PARDON

President's Clemency Will Not  
Save Banker's Life.

Washington, Jan. 19.—President Taft commuted the sentence of Charles W. Morse to expire at once. This action was decided upon following the receipt of a report from Surgeon General Terney of the army, who told Attorney General Wickersham that Morse could not live more than one month longer if kept in confinement nor more than six months if released.

Charles W. Morse was convicted in the federal court in New York on Nov. 5, 1908, of having misapplied the funds and made false entries in the books of the National Bank of North America, of which he was vice president. He was sentenced the next day to 15 years in the federal prison at Atlanta.

Before the panic of 1907 Morse's operations were subject of comment in the financial district. The conservatives feared he was overextending himself. When the panic came he had a string of four important New York banks, the American Ice company and the Consolidated Steamship company, which was a merger of the coastwise companies. In the panic he was eliminated from everything, and then came the criminal prosecution.

Thanks God For Pardon.

Atlanta, Jan. 19.—"Thank God," said Charles W. Morse, when told that he had been pardoned by President Taft. Morse is very weak and the ejaculation with which he received the news was hardly more than a whisper. While Morse's pardon removes from him the watchful eye of the government, it is hardly probable that he will leave the fort soon. The present indications are that it will be some time before he is able to stand even the short trip to the city.

TONIGHT

Rear Wall Falls  
During the Night

Workmen engaged in clearing up the debris of the Dahl-Milikan Friday morning when they returned building, were greatly surprised early to work to find that during the night a large portion of the rear wall had collapsed, falling into the basement where the men had been employed the previous day.

Had the wall collapsed during the day it is more than probable that the wall would have crushed one or more of those engaged in removing the debris.

It is supposed that the wall, weakened by the flames, had become wet and the wind toppled it over during the night, as if the hand of Providence had done the work while none were around to be caught beneath the tons of brick.

Interesting Abstract  
Of Personal Property

Annual Abstract of Personal Property, Moneys and Credits Completed by Auditor Henkle.

The annual abstract of personal property, moneys and credits for 1911 has just been completed by County Auditor Henkle, after being delayed for several months by lack of some parts of the statistics. A copy of the abstract will be filed with the proper state officials this week.

The total value of all personal taxable property is \$8,142,076, while for 1910 it was \$4,917,866, an increase of \$2,550,290. Bank deposits as given by the assessors, from whose returns the abstract is chiefly composed, increased from \$531,531 in 1910 to \$609,796 in 1911.

Moneys invested in non-taxable bonds, etc., have increased from \$454,149 to \$636,968.

The following interesting statistics are embodied in the abstract: Horses, 11,197, valued at \$969,421; cattle, 15,491, valued at \$473,461; mules, 459, valued at \$40,695; sheep, 27,630, valued at \$99,127; hogs, 46,965, valued at \$306,379; carriages, 2487, valued at \$177,757.

All other personal property not included in foregoing or subsequent items, \$551,718.

Watches, 954, value \$9,855; pianos and organs, 978, value \$59,400; Hotel

merchants' stocks, \$501,207.

Value required to be listed as banker, broker or stock jobber, \$1,679; manufacturers' stocks, etc., \$269,960; value of all moneys in possession or on deposit, subject to order, \$609,796; value of all credits after deducting all bona fide debts, \$986,220; all moneys invested in bonds, stocks, joint stock companies, annuities or otherwise, \$13,585; average value of property converted into non-taxable securities, \$25,775; dogs, 24, value, \$780; banks, \$524,215; steam railroads, \$1,971,040.

Total value of all taxable property except per capita tax on dogs, \$8,142,076.

Number of male dogs, 1649; female dogs, 151.

Bonds, etc., exempt from taxation, \$636,968.

Wayne leads in horses with 1978, valued at \$87,445; also cattle 1820, valued at \$54,175.

The number of hogs at the time the report was filed reached 46,965, but it is safe to say this has decreased fully 20,000, due to cholera.

Mr. Thad P. Carr, tuner, is now in Washington. Leave orders at Cherry Hotel 15-61.

Old Ramp Heads This  
Way With More Cold

According to the latest wires from Chicago "Old Winter" hasn't got it all out of his system yet.

The lamb-like atmosphere of yesterday was followed last night by colder breeze and a stiff cold wave is due to arrive straight from the northwest in the morning.

For the first time in almost three weeks Thursday showed not a spot in the United States with a below zero atmosphere. But Thursday night the entire northwest was again in the throes of the zero mark. Another period of frigidty is settling all over the country, with snow falling over many of the states.

Chicago and all its adjacent territory suffered a sleet storm that greatly hampered transportation, caused the death of many horses and injuries galore to pedestrians.

At Neenah, Wis., an ice gorge became so great that it is forcing the million-dollar northwestern railway bridge from its foundations.

The ice is so thick that a week's

effort in dynamiting blasts has had no permanent effect. Conditions are alarming at points where great paper mills are located. The ice jams have become so serious that all the big factories, with their valuable machinery are threatened.

It is hoped that the rigorous cold will have taken its heaviest toll before it reaches the Ohio valley, but the weather man promises us a share of the breezes.

## OHIO HAPPENINGS

### Barges Break Loose.

Steubenville, O., Jan. 19.—A sudden rise broke up the ice in the Steubenville pool of the Ohio river and carried the ice down to dam No. 11 at Wellsburg, where it is gorged. The towboat Sam Clark, with 18 empty barges, and the Steubenville wharfboat, were broken loose and carried three miles down the river and damaged. They are held in the ice gorge. Mrs. W. O. Thornley, wife of the wharfmaster, escaped from the boat over the shore ice when it broke loose.

### Washington County Officially Wet.

Marietta, O., Jan. 19.—Official figures announced by deputy state supervisor of elections show that Washington county went wet by 20 votes at the Rose law election Saturday. The wets cast 4,588 and the dries 4,568. No contest is contemplated by the opponents of the saloon. Fifteen to 20 saloons will be opened, probably next week 32 having gone out of business when the county went dry three years ago.

### Dynamite Witness Cornered.

Fremont, O., Jan. 19.—After a chase which took him into three states United States Marshal Brown succeeded in serving a summons on Charles Keiser of this city to appear before the grand jury at Indianapolis in the McManigal dynamite case. While a shooter at Muncie, Ind., Keiser is alleged to have sold dynamite and nitroglycerin to one of the McManigal brothers.

### Firebug Makes Confession.

Newark, O., Jan. 19.—A. L. Roshon, 27, of Kirkersville, was lodged in the county jail here by Deputy State Fire Marshal Cooksey, on a charge of arson. Roshon confessed to Cooksey that he set fire to his restaurant in Kirkersville Wednesday night, Jan. 10, to realize on \$500 insurance policy.

### Murderer Is Convicted.

Akron, O., Jan. 19.—After being out for six hours a jury returned a verdict finding William Murray guilty of second degree murder. Murray, whose home was New York, was charged with the murder of Frank Price of Cayuga Falls, at Hudson, July 5 last.

### Drys Retain Gaffia.

Gallipolis, O., Jan. 19.—Gallia county, which three years ago went dry by 1,688 majority, remains in the dry column, as the result of the second election under the Rose law by 1,262. Gallipolis, which gave a substantial dry majority at the former election, went wet by 257. The wets carried every ward.

### Wants to Come Back.

Bellefontaine, O., Jan. 19.—General Robert P. Kennedy, former congressman and lieutenant governor, will be a candidate for representative in the state legislature from Logan county, according to statements made by his friends.

### Made Bishop of Cheyenne.

Rome, Jan. 19.—Announcement is made by the Vatican of the appointment of the Rev. Patrick Louis MacGovern to be bishop of Cheyenne.

## No More Constipation ---WHEE!

It's Me for Olive Tablets!

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and Calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No gripping is the "keynote" of these little sugar-coated tablets.

They cause the bowels and liver to act normal. They never force them to unnatural action.

It is easy to compel bowel and liver activity for a time with calomel and nasty, sickening, gripping castor oil, but the after effects are dangerous, and the real cause of the trouble is often not even touched.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and constipated, you'll find quick, sure and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

Thousands take one every night just to keep right. Try them.

"Every little Olive Tablet has a movement all its own."

10c and 25c per box.  
The Olive Tablet Company, Columbus, Ohio. Dr. F. M. Edwards, Pres.

## NOTES of SPORIDOM

Ed Konetchy, first baseman of the Cardinals, has become a magnate. He owns an indoor ball club in St. Louis.

Hank O'Day said he was tickled "almost to death" to quit umpiring. Hank says he wants some friends before he dies.

Otto Sellen, some drop kicker, from George Huff's own school, has joined the Stag party against summer baseball for the colleges.

Of the 16 managers in the major leagues, 12 are Irishmen. Most magnates want to combine the duties of a policeman and manager in one.

When the Chinese have a national and international league they will also have another way of smuggling their race into the land where baseball originated.

British soldiers may have been trained on the football fields of Eton, as a famous general once remarked, but British suffragettes have been trained in bargain sales.

Scout George Huff says the summer baseball ban is a huge joke. He thinks a person who advocates the rule is either stupid or blind. Coach Stag can't "see" this at all.

Joe Chovynski, the veteran heavy-weight pugilist, who is living in Pittsburgh, declares himself a come-back, and wants to meet Buck Crouse in a six-round bout to prove it.

### WARRIOR CHIEF OF CONGO

Down in the Congo, over which territory in Africa the French and Germans are disputing, the inhabitants have not taken kindly to the ways of civilization. Our illustration is a portrait of a warrior chieftain who has been unusually successful in following the native custom of letting the finger nails grow. These natives are armed with modern weapons and are desperate fighters.

### HEN THAT CHEWS ITS FOOD

Isaac Schantz of Bayonne, N. J., has a curiosity in a young Plymouth rock hen, which has a face resembling that of a human being. The hen was purchased by him for 29 cents. It has several teeth and chews its food, which is principally chopped meat. The hen has nails on its feet like those of a human being, and it refuses to mingle with Schantz's other chickens. The hen was hatched last spring, but its owner does not know where, as the man from whom he purchased it bought it along with several other ordinary fowls.

### Wasps Enjoy Church Service.

German town, N. Y.—Because he allowed a swarm of wasps to build a nest in the church, Sherman Likely, sexton of the Dutch Reformed church, is in danger of losing his position. The wasps nearly broke up the services, and now a committee is investigating. The swarm made its home in the church during two weeks the church was closed, and when the fires were started Sunday the wasps descended upon the worshippers.

## NOTES of SPORIDOM

New York cyclists are practicing for the Olympic games.

A mighty good thing not to watch is a three cushion billiard game.

Frank Baker of the Athletics will open a sporting goods store in Philly.

Harry Davis, Cleveland's new manager, will soon be actively on the job. American Olympic games committee has appealed for funds to send a crack team to Stockholm.

Ty Cobb says that he didn't know anything about his famous "fade away slide" until Germany Schaefer taught him how.

"No, footballs are not made of pigskin. The little animal from which we get our veal, the calf, is the great college benefactor. Don't know where this 'pig tale' started."

Coach Stag defends "new football," leaving it to the others to come to the rescue of the "new woman." Certain eastern critics, it seems, don't relish the denatured game. Perhaps they don't understand it.

Umpire Hank O'Day of the National league is refreshingly frank in opposing the plan to take arbitrators on the spring training jaunts. As an umpire he doesn't wish to associate with the baseball players.

### SHAW IS PEEVISH

Roasts Americans For Failure to Appreciate Irish Drama.

London, Jan. 19.—George Bernard Shaw, in an interview on the arrest of the Irish players in Philadelphia, said:

"The occurrence is too ordinary to excite comment. All decent people are arrested in the United States. That is the reason why we have refused all invitations to go there."

"Besides, who am I that I should question Philadelphia's right to make itself ridiculous?"

"I warned the Irish players that America is governed by a mysterious law, probably one of the lost tribes of Israel, calling themselves American Gaels."

"It is an especially dangerous country for genuine Irishmen and Irishwomen. American Gaels are the real playboys of the western world."

"We are none the less grateful on this side to Colonel Roosevelt for his public, and no doubt representative, expression of contempt for this blackguardly agitation against art and literature which has made the names of Synge, Yeats and Lady Gregory famous, and has called the attention of Europe to the fact that Ireland is a nation with a specific and splendid national genius, and is not merely a province of England."
